Mayor Loretta Clawson asked, if the current projects that are all ready under construction in the town would be grandfathered into these new regulations. Mr. Garrett said that current construction would be complaint and referred to Page 52 of the staff report, **Section 304 Legal Status Provisions [b] Effect Upon Outstanding Floodplain Development Permits**. Mr. Garrett read the following, however, when construction is not begun under such an outstanding permit within a period of six (6) months subsequent to the date of issuance of the outstanding permit, construction or use shall be in conformity with the provisions of this ordinance.

Council Member Phillips asked a question on Page seven of the staff report regarding Section 305 Special Provisions for Subdivisions [c], [1], [2], [3]. He asked if all three criteria have to be met or only one criterion. Mr. Graham understood it to read that all three criteria must be met because of the word “and”. It was noted that the expansion of the Greenway is not affected by these changes.

Council Member Rennie Brantz asked what the current flood rates are. Mr. Jim Byrne, Interim-Director of Development Services came to the podium to explain that the Boone area is a *Community Rated System* and on December 3, 2009 the new rates will become effective. Mr. Garrett gave other information on flood insurance.

The first speaker on this case was Mr. Ranny Phillips. Mr. Phillips stated that his main concern was for his Greenway Village Mobile Home Park. He said the text amendment change would increase his cost of putting in new mobile homes. He broke down the various dollar amounts equaling approximately \$4,000.00 that it cost him to provide an Affordable Housing home in a mobile home park. This cost includes setting the flood elevations for each mobile home.

With no further comments by board members or staff, Mayor Clawson closed the public hearing for this case.
